

## **Proposed Pavement Committee**

**May 17, 2011**

### **Purpose of Pavement Committee**

Prepare a white paper that will help advance the pavement infrastructure in the geographical area covered by Spokane County and nearby local agencies. The pavement committee will consist of contractors, local agencies, and engineers. The white paper will generally describe the condition of existing pavements, design practices, construction practices, and new pavement technologies. The white paper will not provide design recommendations.

### **Management of Committee:**

- The committee would report to the ASCE board each month.
- The committee will have a lead representative and several subcommittees that will be organized during kick-off meeting and preliminary meetings.
- The committee will refrain from providing design recommendations and doing work that is typically done by a consultant, contractor, or local agency.

### **Schedule:**

- Begin May 17, 2011
- Kick off meeting by middle of June
- Draft paper January 15, 2012
- Complete March 1, 2012
